Charles H. Bogart (201 Pin Oak Pl., Frankfort, KY 40601-4250) sent us these ship's patches illustrations.

Charles H. Bogart sent us these illustrations from Frankfort, Ky. We will show more of them in the Crow's Nest and welcome more pictures, from all sea services.

There must be insignia like this also for the U.S.C.G., U.S.P.H.S., U.S.C. & G.S., U.S.M.S. and N.O.A.A. as well!?

We need your input for the Crow's Nest, so we can show more insignia of other branches too! Sarge

THESE PETTY OFFICER RATINGS ARE NOT U.S. GOVERNMENT CONTRACT MANUFACTURE

Submitted by Stephen Decatur Rohde to the Crow's Nest newsletter.....

EAGLE LOOKS U.S. MADE, BUT SEWING OF MARK
AND EMBROIDERY OF CHEVRON IS NOT STANDARD
U.S. MANUFACTURE.

FUNKY EAGLE; TOO LONG OF NECK, AND WINGS TOO
UPSWEPT; CHEVRONS RED FELT. FOREIGN MADE.

The stamp at the top is that of the Navy Issue of 1936-1937. It is listed in Scott's Catalogue as Number 794 and blue in colour. The stamp on the left, below is No. 229 and was issued in 1890 in honour of Commodore Oliver Hazard Perry and is orange. The stamp to the right of it is No. 1869 to honour Admiral Chester William Nimitz and its brown in colour. All three were hand drawn on 11" X 17" volunpaper in India ink, ten times actual size from my personal collection.
